In August 2015, an online survey was conducted by the City of Kenosha Commission on the Arts, Kenosha County University of Wisconsin-Extension, and Expose Kenosha, with support from the Kenosha Community Foundation, to assess the state of the arts in Kenosha County.

A total of 142 local artists participated, sharing their perceptions of the area’s strengths, challenges, and opportunities for continued growth.
2020 Arts Impact Survey Goals

1. Five-year follow up data: This 2020 survey was designed to include the same questions from the 2015 survey, providing important longitudinal data about the creative economy in Kenosha.

2. COVID-19 impact data: The 2020 survey also includes new questions that relate to the unique impact of the global COVID-19 pandemic. These additional questions help us understand the human and economic impact of COVID 19 on the arts in Kenosha.
The Commission’s 2020 Arts Impact survey seeks to document the state of the arts specifically in Kenosha.

Responses to the survey will help the Commission learn how to better serve arts communities as they recover from the COVID-19 pandemic, furthering the Commission’s goal of developing collaborative relationships between Kenosha arts communities, businesses, and government.
Over 450 artists and organizations were contacted via email and phone calls.

We received 52 responses.

Here’s what we found:
- Kenosha arts organizations utilize the arts to raise community morale, despite decreasing revenues during a global pandemic.

- Kenosha arts organizations are resilient and increased creative output while moving to online and hybrid programming because of the COVID pandemic.

- Kenosha arts organizations contribute to the local economy by purchasing supplies and creating jobs. Kenosha arts organizations benefit from community and developing collaborative relationships with artists, musicians, businesses, and other organizations.

- Kenosha arts organizations indicate that key issues for the future include supporting community venues and arts spaces, more diversity within arts organizations and offerings, and more programming to network with other arts organizations and local businesses.
