KENOSHA – The City of Kenosha is making plans for the design of the 22nd Avenue corridor in the Uptown Neighborhood, in preparation for the street reconstruction in 2020. The City is working with the consultant team of Kimley-Horn and Prism to develop a vision for the area, including such things as sidewalks, lighting, landscaping and parking. Interested residents are invited to share their ideas for streetscape enhancements for the Uptown Neighborhood by taking a short, five minute survey.

Please use the link to complete the Uptown survey before March 8, 2019 at:
