KENOSHA – The 2024 Spring curbside yard waste collection ends the week of June 3, 2024. The city offers drop-off of yard waste, brush and branches April through November at the city's self-serve yard waste drop-off site at 4071-88th Avenue. The hours of operation are 8 a.m. to 6 p.m. Monday through Saturday excluding holidays.

Yard waste can be taken to the site in city-approved biodegradable bags or in any clean container, but it must be clean and free of debris prior to disposal. The City processes the yard waste into a high-grade compost, which is available to City residents free of charge.

The Yard Waste/Brush Drop-Off Site is available to City of Kenosha residents only and is free of charge. Proper identification displaying proof of residency is required. No commercial disposal is allowed; no dumping by any contractor will be accepted.

Citizens who need assistance may visit the drop-off site on Wednesdays, when City staff is available to assist with yard waste drop off.

For drop-off at the site, brush and branches do not need to be bundled. Brush/branches up to six inches in diameter and 12 feet in length are accepted. There is no weight limit for brush/branch drop-off.
