This Work shall also consist of saw cutting, removing and replacing unsuitable foundation underlying the public sidewalk: providing, installing and compacting crushed aggregate base course; concrete masonry, expansion felt, finishing, curing and protecting, cleaning, back filling, restoring disturbed areas and disposal of excess material; tools, labor, material and equipment, and other incidentals necessary to complete Work per City's Department of Public Works specifications.

The City shall not be liable to the Contractor for any loss, destruction, theft or removal of any property from the
premises nor shall the Contractor be entitled to any allowance or other claim against the City should any of said acts occur.

**FILL DIRT AND FINAL GRADING.**

The Contractor shall use clean fill dirt with stones not exceeding one (1") inch in diameter and fill the lot to match the public sidewalk grade and adjacent lot line grade. A description and original source of the fill material is required. Please note that soil testing will be required if the source of the fill material is not from a historically clean site. The Contractor shall not assume that fill material will be available from the Department of Public Works or from the Kenosha Water Utility.

**TOP SOIL, SEEDING AND MULCHING.**

Upon completion of the demolition, the Contractor shall fill the lot with four (4") to six (6") inches of top soil, seeded with seed mixture appropriate for the site conditions, and mulched with hay, straw, or other material approved by City, when conditions permit.

**DEMOLITION TECHNIQUES.**

The Work shall be performed in accordance with accepted demolition techniques of the National Association of Demolition Contractors, incorporated herein by reference.

During the demolition, the Contractor shall sort metals for recycling. The consolidation process will reduce the building to a size that can effectively fit in demolition trailers. Water shall be used as a dust suppressant whenever practicable.

**BLASTING PROHIBITED.**

Work will not be performed through blasting with explosives.
DETAILED SPECIFICATIONS - SIDEWALK/CURB AND GUTTER

SECTION I - WORK TO BE DONE

The work to be done under these specifications consists in furnishing all the necessary, equipment, materials, tools and labor for the laying of concrete sidewalks and of curb and gutter, as directed by the Engineer.

SECTION II - EROSION CONTROL

It has been determined that an erosion control permit in accordance with Kenosha Ordinance 92-92, dated November 20, 1992, is not required for this project. The permit fee has been waived. The Contractor shall still be required to file with the Engineer a copy of the erosion control plan for any excess material removed from the project site and disposed elsewhere inside or outside the City. Contractor shall also provide a copy of any permit required by any Village, Town or City where excess material is deposited.

SECTION III - PORTLAND CEMENT CONCRETE

A. COMPOSITION

All Portland cement concrete used in the work under this contract shall conform to the City's air entrained class "A" or High Early Strength Concrete as indicated in the plans and special provisions or as directed by the Engineer.

The Contractor may, at their own cost and expense, elect to use high-early-strength (H.E.S.) concrete in order to reduce the required protection time, except at property access points where H.E.S. concrete shall be required and paid for at the bid price for H.E.S. concrete.

Fly ash will not be allowed.

B. PROTECTION AND CURING

The Contractor shall erect and maintain suitable barricades as may be necessary to exclude traffic from the newly constructed pavement, curb and gutter or sidewalk. Any part of the curb and gutter, pavement or sidewalk not acceptable by the City shall be repaired or replaced by and at the expense of the Contractor. Such protection shall be maintained for at least seven (7) days for curb and gutter or pavement, twenty-four (24) hours for sidewalks, or as directed by the Engineer. When high-early-strength concrete is used in curb and gutter or pavement construction the protection period may be reduced to three (3) days. Immediately after finishing operations are completed and while the concrete is still plastic, the surface of the concrete shall be covered uniformly with a water impermeable curing compound, coating applied as fine spray.

The material used shall, when tested in accordance with A.S.T.M. Designation C-156, provide a film which will retain within the specimen at the end of 72 hours at least 85% of the water used in the concrete mix. It shall be applied to the concrete at a rate sufficient to affect the required water retention and shall form a continuous coherent, water impermeable...
finished walk.

Asphalt removed for new walk placement is considered to be surplus material, with the cost of disposal to be included in the prices for new walk construction.

C. **DIMENSIONS**

Public sidewalks constructed within a City block shall conform to the prevailing width of other sidewalks within said block. Where there is a no prevailing paved sidewalk within a given City block, public sidewalks shall be 5' in width unless otherwise directed by the Engineer, provided that in front of all stores and buildings used for mercantile, commercial and manufacturing purposes, the sidewalk shall be 5 foot in width, or as designated on a plan presented to and approved by the City Engineer's office. All sidewalks shall be a minimum of 4" in thickness, except in areas of drive approaches where the sidewalks shall be a minimum of 6" in thickness.

A block shall be defined as one side of a street or highway from intersection to intersection, except where there is a cul-de-sac; in which event the cul-de-sac and both sides of the street leading into the cul-de-sac shall be considered a block.

D. **FORMS**

Forms should be either wood or metal, of approved type, and should be straight and strong enough to resist springing, tipping or any other displacement during the process of pouring the concrete.

Wooden forms should be at least two inches thick, except for sharply curved sections. They should be securely staked to hold required line and grade. NO EXPANSION JOINT MATERIAL OVER 16 INCHES IN LENGTH MAY BE USED AS A FORM FOR PLACEMENT OF CONCRETE, EXCEPT IN AREAS WHERE TREES MAY BE A PROBLEM AS DIRECTED BY THE ENGINEER.

E. **PLACING**

The concrete shall be handled rapidly and the successive batches deposited in a continuous operation, completing individual section to the required depth and width. Under no circumstances shall concrete that has partially hardened be used. The method of placing the various sections shall be such as to produce a straight, clean-cut joint between them. Any concrete in excess of that needed to complete a section at the stopping of work shall not be used. No one shall not be permitted to walk on the freshly laid concrete. In no case shall concrete be deposited upon frozen subgrade or subbase.

F. **FINISHING**

After the concrete has been brought to grade, it shall be floated with a bull float, to be followed shortly thereafter by floating with a long handled steel trowel. An edger of 3/4" radius design shall be used on all longitudinal edges and a 3/4" radius jointer to score all transverse joints. When the concrete is ready the final finish shall be made by qualified skilled finishers only. The surface shall be lightly brushed before the concrete has set, so as to

Detailed Specifications - Sidewalk/Curb & Gutter
On streets which have existing bituminous concrete in the gutter pan and which are designated as requiring bituminous concrete on the work list, the Contractor shall replace bituminous concrete equal in depth to that removed. The Contractor shall make a clean and straight cut on the existing bituminous concrete and apply tack coat at a rate of 0.10 gal./s.y. on the concrete surface and all edges prior to placing of new bituminous concrete. Payment shall be by the linear foot and shall be included in the price for concrete curb and gutter with asphalt pan.

In large areas, as designated by the Engineer, where excess settlement has occurred the Contractor shall supply and compact granular base course to bring the area to grade. Payment for this work shall be made at the price bid per ton for granular base course. The Contractor shall supply weight tickets for each load used.

NOW, THEREFORE, in consideration of the mutual undertakings, promises, agreements, understandings and undertakings hereinafter set forth, and good and valuable consideration, the sufficiency of which is hereby acknowledged, CITY and CONTRACTOR agree as follows:

1. DEFINITIONS.
   a. "CITY" shall mean the City of Kenosha, Wisconsin.

2. WORK TO BE PERFORMED BY CONTRACTOR AND PRICE/COST.

CONTRACTOR, for the sum of _______________________________ Dollars and ________ Cents ($ ______.______._____), will perform and complete, or will cause to be performed and completed, all WORK defined in this CONTRACT, in a good and workmanlike manner, and it will do so in accordance with and subject to the provisions of this CONTRACT for:

Address : 3004-60th Street, Kenosha, Wisconsin 53144
Tax Parcel No: 09-222-36-383-014
Description: A two (2) story, single-family residential wood framed structure consisting of approximately 1,243 square feet together with a basement and attic.

WORK shall be performed in accordance with Instructions, Specifications and Special Conditions. In the event of a conflict between this CONTRACT, the Specifications and Special Conditions, the Specifications and Special Conditions shall control and supersede any inconsistent CONTRACT provision(s).

3. COMMENCEMENT AND DILIGENT PROSECUTION OF WORK.

CONTRACTOR will prosecute WORK diligently until fully complete in accordance with this CONTRACT. CONTRACTOR shall obtain required permits and commence remediation and demolition WORK no later than fifteen (15) days of Notice of Award of CONTRACT and Notice to Proceed. Demolition work is to be completed within thirty (30) days from the Notice to Proceed.

CONTRACTOR, in the event of a dispute respecting quantity or quality of WORK, shall not refuse to perform WORK and shall not delay the performance of WORK pending the resolution of said dispute. Arbitration is not herein provided for and unresolved disputes may be settled through the Courts.

CONTRACTOR has the duty of requesting an extension of time to complete the WORK from the DIRECTOR, in writing, prior to the time for CONTRACT
completion, where the progress of the WORK was delayed such that the WORK will not be completed on time, and CONTRACTOR was not responsible for such delay. Should DIRECTOR grant an extension, CONTRACTOR will not be liable for liquidated damages arising out of the delay. Should DIRECTOR determine that the WORK will not be completed on schedule through normal methods and where no request for a time extension has been requested, or if requested, such request was not justified, DIRECTOR shall provide CONTRACTOR with written notice requiring CONTRACTOR to take such extraordinary measures as may be required to complete WORK on time, or as close to on time as possible. The failure of CONTRACTOR to take such extraordinary measures shall be grounds for CITY to suspend WORK by CONTRACTOR and take such other measures as will assure completion of WORK within the CONTRACT time, or if that is impossible, within a reasonable time. However, nothing herein contained shall prevent DIRECTOR from suspending the CONTRACTOR from proceeding with WORK beyond the time set for the completion date where the completion date was not extended.

4. CONTRACT TERM. The term of this CONTRACT shall be from the date of execution until each of the following:

a. Respecting WORK, until completion and acceptance.
b. Respecting warranty, until expiration of warranty term.
c. Respecting Indemnity and Hold Harmless Agreement and Liability Insurance, until claims filed, if any, are resolved, or expiration of Statute of Limitations where no claims filed.

5. TERMINATION FOR CAUSE. In the event either party should fail to fulfill in a timely manner its obligation under this CONTRACT, the non-breaching party shall thereupon have the right to terminate the CONTRACT by giving a ten (10) day written notice to the breaching party of such breach and specifying the date of the termination, if the breaching party has not timely rectified and remedied the purported breach to the satisfaction of the party that gave notice of the breach.

CONTRACTOR shall perform no new or additional WORK upon receipt of a notice of termination without the advance, written permission of DIRECTOR, except as necessary to cure the default, but not beyond the ten (10) day period to cure.

6. PERFORMANCE AND PAYMENT BOND/ASSURANCE. CONTRACTOR shall prior to approval of the CONTRACT obtain a Performance and Payment Bond or other assurance required by CITY, in a form approved by the CITY, in the sum of the accepted Proposal. CONTRACTOR understands that CITY may file a claim against this bond or assurance should any of the provisions of this CONTRACT not be faithfully and timely performed by CONTRACTOR.

7. DIRECTOR DECISION FINAL. Should any dispute arise at any time between CONTRACTOR and CITY as to the true meaning or requirements of this CONTRACT, or as to the manner of execution of WORK, or as to the quality of WORK executed, or as to the quality or quantity of materials used, or as to the timely completion of the WORK, the decision of DIRECTOR shall be final and conclusive, until and unless set aside by a Court of law.
CONTRACTOR agrees that should any decision of the DIRECTOR be challenged in Court, the Court may only set aside a decision of DIRECTOR if it is wholly arbitrary and capricious and/or made in complete disregard of disputed facts.

8. METHODS, LABOR, EQUIPMENT, MATERIALS AND SUPPLIES. CONTRACTOR shall select such methods and equipment for the performance of all operations connected with WORK as will assure professional quality of WORK and a rate of progress which will assure the timely completion of WORK. CONTRACTOR is responsible for furnishing all labor, equipment, material and supplies required to perform WORK.

9. SUSPENSION OF WORK BY CITY. DIRECTOR shall have authority to suspend WORK where he believes that CONTRACTOR is not performing WORK in accordance with this CONTRACT. CONTRACTOR shall have no right to additional compensation for delay or a right to an extension of time to complete WORK where WORK is suspended by DIRECTOR for good cause.

10. INJUNCTIONS. Should a preliminary or temporary injunction suspend WORK for a period of time, the deadline for completion of WORK shall be extended by such time as the preliminary or temporary injunction was in effect. In the event a permanent injunction or Court order or judgment prohibits WORK, this CONTRACT shall be null and void as of the date such injunction, Court order or judgment becomes final, although CONTRACTOR shall be entitled to reasonable compensation for WORK performed to that date. In the event a permanent injunction, Court order or judgment reduces the scope of WORK, this CONTRACT shall be deemed modified in accordance therewith and compensation of CONTRACTOR shall be proportionately reduced to reflect the decrease in the scope of WORK.

11. CHANGE ORDERS FOR ADDITIONAL WORK, ADJUSTMENT IN PRICE. CONTRACTOR does not have the discretion to refuse to comply with a Change Order to increase the scope of WORK identified in CITY Request for Proposals. Increases in the scope of WORK shall result in a determination of CONTRACTOR’S additional compensation based upon good faith negotiation, with the CONTRACT as a guideline. Change Orders must be in writing approved by the CITY, and by CONTRACTOR, and upon approval and execution, shall be considered a CONTRACT amendment, to be kept on file in CITY Department of Finance, and incorporated into this CONTRACT by reference. Should CONTRACTOR refuse to sign a Change Order under circumstances where there is no discretion to do so, said Change Order will be in full force and effect without said signature, provided DIRECTOR attaches thereto a written report so indicating.

12. CLAIMS AND DEADLINES FOR ADDITIONAL COMPENSATION. Any claim by CONTRACTOR for additional compensation arising out of extenuating circumstances not covered by this CONTRACT shall be submitted, in written form, to the DIRECTOR within fourteen (14) calendar days of the event giving rise to or forming the basis for such claim, or be deemed forever waived. When the claim for additional compensation involves WORK which will be covered and unavailable for inspection within said fourteen (14) day period of time, then CONTRACTOR shall promptly provide DIRECTOR with informal notice and an opportunity for inspection although a formal claim need not be filed earlier than as above provided. CONTRACTOR further has a duty to, from time to time, notify DIRECTOR of any
facts or events which may lead to a claim for additional compensation as soon as CONTRACTOR is aware of such facts or events.

13. **WAIVER OF RIGHTS.** No failure to exercise, or delay in exercising, any right, power or remedy hereunder on the part of either party shall operate as a waiver thereof, nor shall any single or partial exercise of any other right, power or remedy preclude any other further exercise thereof or the exercise of any other right, power or remedy. No express waiver shall affect any event or default other than the event of default specified in such waiver, and any such waiver, to be effective, must be in writing and shall be operative only for the time and to the extent expressly provided therein. A waiver of any covenant, term or condition contained herein shall not be construed as a waiver of any subsequent breach of the same covenant, term or condition.

14. **SUBCONTRACTORS, MAJOR SUPPLIERS, AND MATERIAL DUMPING OR DISPOSAL SITES.** CONTRACTOR will only use subcontractors, major suppliers and dumping or disposal sites, which are listed in this CONTRACT. Major material suppliers shall be those providing over $5,000.00 in materials. Any changes in said list must be approved by CITY. CONTRACTOR is responsible for the WORK of subcontractors and for delays in Work occasioned thereby.

CONTRACTOR has a duty to remove and replace subcontractors whose involvement in WORK will result in a breach of this CONTRACT. Furthermore, should DIRECTOR, in his/her sole discretion determine the subcontractors and/or suppliers involvement in the WORK will result in a breach of the CONTRACT, DIRECTOR shall have the right, in writing, to compel CONTRACTOR to remove and replace said subcontractors and/or suppliers. Should CONTRACTOR fail to comply with the requirements of providing notice or removing and replacing subcontractors, CITY shall have the option to declare the CONTRACTOR in breach and exercise the rights pursuant to Section 31 herein.

15. **CONTROL AND PROTECTION OF WORK SITE.** CONTRACTOR shall be responsible for the control and protection of WORK site from commencement of WORK until WORK is completed. CONTRACTOR shall keep the site secure and inaccessible to the public.

16. **SALVAGE RIGHTS.** CONTRACTOR shall have all salvage rights by virtue of this CONTRACT.

17. **CITY COOPERATION.** CITY will reasonably cooperate with CONTRACTOR to facilitate CONTRACTOR'S performance of WORK. CONTRACTOR will provide reasonable notice to CITY when the assistance thereof is requested. However, CITY has no obligation to supervise or perform any part of WORK.

18. **GOVERNMENTAL PERMITS AND APPROVALS.** CONTRACTOR is fully responsible, at CONTRACTOR'S cost and expense, to procure such permits and approvals as may be required from any governmental body, including the CITY, as a precondition to the performance of WORK, including, but not limited to, raze permit, erosion control permit, permits to temporarily obstruct streets, and asbestos removal permit from the State of Wisconsin, Department of Natural Resources, where an exemption is not applicable.
19. **LAW, RULES AND REGULATIONS.** CONTRACTOR shall comply with all Federal, State and local laws, rules, regulations and codes applicable to the performance of this CONTRACT and WORK including, but not limited to, any requests imposed by the State of Wisconsin's Department of Natural Resources.

20. **CONTRACTOR'S EMPLOYEES AND ON-SITE REPRESENTATIVES.** Although CONTRACTOR performs WORK as an independent contractor, DIRECTOR shall have the right to request CONTRACTOR to remove and replace any of CONTRACTOR'S employees involved in WORK when said employee does not furnish quality workmanship or is uncooperative with or disrespectful to any CITY personnel associated with WORK. CONTRACTOR shall comply with any reasonable request.

21. **CONTRACTOR,** at all times WORK is being performed, shall assign an employee or agent on the WORK site to be the person to whom DIRECTOR may furnish instructions or orders, or make inquiries of at all times when WORK is being performed. The name of such employee or agent shall be submitted to DIRECTOR, in writing, upon commencement of WORK.

22. **WATER USE.** CONTRACTOR has the obligation of arranging with the Kenosha Water Utility for the use of water and may not use any Kenosha Water Utility hydrants or other water source without making arrangements in advance.

CONTRACTOR, where water is required, will be required to obtain a Hydrant Permit and meter from the Kenosha Water Utility, 4401 Green Bay Road. Any deposit and fee shall be paid by CONTRACTOR.

23. **SANITATION AND HEALTH.** CONTRACTOR has the obligation of arranging for drinking water and sanitary conveniences for employees, subcontractors, suppliers, and agents thereof and for taking such WORK site precautions as will deter the spread of infectious diseases. CONTRACTOR shall not use materials in such manner as to pose a health hazard. CONTRACTOR shall obey all lawful orders received from a County Health Department Sanitarian, or from any duly authorized employee of any Federal or State agency having jurisdiction over employee, public health, safety or welfare.

24. **INSPECTION.** CITY has the right, at its cost and expense, to assign or retain inspectors to determine that WORK is in conformance with the CONTRACT. However, only DIRECTOR can reject WORK. The use of inspectors by CITY shall not relieve CONTRACTOR of the duty of making its own inspections and of itself rejecting improper or defective WORK, by its employees, subcontractors, suppliers and agents. The failure of a CITY inspector to notice or reject improper or defective WORK shall not waive any rights of DIRECTOR to have CONTRACTOR take corrective action at CONTRACTOR'S cost and expense to remedy such deficiencies or defects, when discovered. The use of inspectors by CITY shall not relieve CONTRACTOR of its duty to maintain a safe workplace.

25. **WORKMANSHIP.** Workmanship shall conform to the best standard practice in Southeastern Wisconsin. Equipment and procedures used must be suitable to and compatible with the nature of the WORK, WORK site and prevailing year-round weather conditions which affect WORK and the WORK site.
26. **UTILITIES.** CONTRACTOR has the obligation of obtaining utility locations, clearances, hookups or cutoffs directly from the relevant utility at CONTRACTOR’S cost and expense. The CITY shall disconnect gas and electrical power and remove power lines from the building(s) or structure(s) being razed.

27. **CLEANUP.** CONTRACTOR shall at all times keep the site and off-site areas related to WORK, including all right-of-ways, streets, highways, alleys and private or public property adjacent to the WORK site, in a clean and sanitary condition, free from any rubbish, debris, surplus or waste materials that have accumulated as a result of WORK.

Within ten (10) days after the completion of WORK, CONTRACTOR shall remove all surplus materials, tools, equipment or plants, leaving the WORK site and off site areas related to WORK, unobstructed, clean and sanitary, ready for their intended use and in as safe a condition as their nature will reasonably permit. Should CONTRACTOR neglect any such duty, DIRECTOR may cause any such WORK to be performed at CONTRACTOR’S cost and expense.

28. **FOUNDATIONS AND EXCAVATIONS.** CONTRACTOR assumes all risks and costs and expenses associated with foundations and excavations, whether actual or, where in CITY’s opinion, there exists potential of (1) collapse; (2) damage to abutting public or private property; or (3) problems associated with subsurface or surface waters, ice or snow. An inspection by CITY shall be performed prior to back filling. CONTRACTOR shall coordinate with the Department of Community Development and Inspections in performing said inspection. Should said inspection, in CITY’s opinion, indicate any of the potential of (1) collapse; (2) damage to abutting public or private property; or (3) problems associated with subsurface or surface waters, ice or snow, CONTRACTOR shall undertake any action requested by CITY to address said concerns.

29. **PAYMENT OF EMPLOYEES, SUBCONTRACTORS AND SUPPLIERS.** CONTRACTOR shall promptly pay all employees, subcontractors and suppliers for all work, labor, services, supplies or materials which they may directly or indirectly furnish in the fulfillment of this CONTRACT and CONTRACTOR shall secure, as soon as possible, a waiver of liens or the release of any and all liens which may attach as a result of the WORK. CONTRACTOR, as a condition of payment, shall execute an Affidavit Respecting Construction Lien Waivers/Releases and file such document with CITY Director of Finance.

30. **LIQUIDATED DAMAGES FOR DELAYS IN CONTRACT COMPLETION.** In the event that CONTRACTOR fails to fully and completely perform WORK within the time limit or time extension provided, CONTRACTOR shall pay to CITY for such default the sum of Two Hundred ($200.00) Dollars per day, for each and every day’s delay in the fulfillment of this Contract provision. This sum shall be considered and treated not as a penalty, but as fixed, agreed and liquidated damages due CITY from CONTRACTOR.

31. **RIGHTS OF CITY UPON CONTRACTOR DEFAULT.** CONTRACTOR recognizes the right of CITY to suspend WORK, to order the revision of nonconforming WORK, to relet all or part of WORK or to itself perform such WORK as may be required to ensure
the timely completion of WORK or to replace improper or defective WORK, as determined necessary by DIRECTOR. However, none of the above shall relieve CONTRACTOR of its obligations under this CONTRACT.

32. OVERPAYMENTS AND SETOFFS UNRELATED TO CONTRACT. CONTRACTOR will promptly, upon receipt of written demand from DIRECTOR, refund any overpayments received thereby. Should CONTRACTOR not comply with said request within thirty (30) days of receipt of written notice, CONTRACTOR shall pay CITY interest for said amount at the rate of one (1%) percent per month on the unpaid balance, until paid in full. Should CONTRACTOR owe CITY any money which is lawfully due and payable on any account receivable or on any personal property tax, forfeiture or fee, whether or not related to WORK under this CONTRACT, CONTRACTOR authorizes CITY to deduct said amount from any payment due CONTRACTOR hereunder.

33. SAFETY PRECAUTIONS. CONTRACTOR, during the performance of WORK, shall assume control of the WORK site and put up and properly maintain, at CONTRACTOR'S cost and expense, adequate barriers, warning signs, lights and such other devices and take such measures as will make WORK site as safe as the nature of the premises will reasonably permit to protect frequenters as well as persons using abutting private or public property, from any and all dangers associated with WORK, during both day and night hours. DIRECTOR may order CONTRACTOR, by a time or date certain, to take designated safety measures and the failure of CONTRACTOR to promptly obey said order shall result in a penalty of One Hundred ($100.00) Dollars per day for each day said order is not complied with. CONTRACTOR shall be fully responsible for making the WORK site as safe as its nature will reasonably permit and may not rely upon any inspections, instructions or orders of DIRECTOR or CITY inspectors or lack thereof, in this regard. CONTRACTOR has an obligation to check warning and safety devices on a daily basis. In the event of termination of this CONTRACT prior to completion of WORK, CONTRACTOR shall continue to be responsible for maintaining the safety of the WORK Site until relieved of the obligation by DIRECTOR or until another contractor takes possession of the WORK Site.

34. PAYMENT – ACCEPTANCE OF WORK. Payment shall be made by CITY upon completion of WORK and submission of invoice to CITY Director of Finance, within fifteen (15) days after DIRECTOR executed a document accepting WORK as being performed in accordance with this CONTRACT, subject to the following.
