INDEPENDENT AUDITORS' REPORT

Board of Water Commissioners The City of Kenosha Water Utility Kenosha, Wisconsin

Report on the Audit of the Financial Statements Opinion

We have audited the accompanying financial statements of the City of Kenosha Water Utility (the Utility), an enterprise fund of the City of Kenosha (the City), as of and for December 31, 2021 and 2020, and the related notes to the financial statements, which collectively comprise the enterprise fund's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the City of Kenosha Water Utility as of December 31, 2021 and 2020, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City of Kenosha Water Utility and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City of Kenosha Water Utility's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due
 to fraud or error, and design and perform audit procedures responsive to those risks. Such
 procedures include examining, on a test basis, evidence regarding the amounts and disclosures
 in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of expressing an
 opinion on the effectiveness of the City of Kenosha Water Utility's internal control. Accordingly,
 no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City of Kenosha Water Utility's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion, the schedule of the Utility's allocation of the City's proportionate share of the net pension liability, schedule of Kenosha Water Utility contributions – Wisconsin Retirement System, schedule of changes in the Utility's total OPEB health insurance liability and related ratios, schedule of the Utility's allocation of the City's proportionate share of the net OPEB liability – Local Retiree Life Insurance Fund, and the schedule of Kenosha Water Utility contributions – Local Retiree Life Insurance Fund be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial

Board of Water Commissioners The City of Kenosha Water Utility

reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements that collectively comprise the City of Kenosha Water Utility supplementary schedules on pages 58 through 68 as listed in the table of contents are presented for purposes of additional analysis and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Management's Discussion and Analysis

The management discussion and analysis of the Kenosha Water Utility's financial performance provides an overall review of financial activities for the years ended December 31, 2021 and 2020. This information should be read in conjunction with the financial statements.

2021 Financial Highlights

The Utility's combined net position increased to \$212.4 million from \$207.5 million. Events that had significant impact on the financial statements were:

- Operating revenues increased approximately \$1.93 million or 7.0% from 2020 while operating expenses increased \$0.95 million or 4.7% from 2020. This resulted in an increase of approximately \$982,000 or 30.1% in operating income compared to 2020.
- The Utility awarded contracts for water main relays and Utility-owned lead service replacements totaling approximately \$3.66 million for various locations within the City of Kenosha. An agreement was entered into in the amount of \$4.18 million for the membrane system retrofit.
- Water main relay projects in the amount of approximately \$2.12 million were completed during 2021.
- The Utility received grants of approximately \$1.16 million for privately-owned lead service line replacement from the State of Wisconsin Safe Drinking Water Lead Service Line Principal Forgiven Assistance Program. This allowed the Utility to pay 100% of the cost of most residential, privately-owned lead services lines replaced during 2021. In addition, 143 Utilityowned lead service lines were replaced or abandoned during 2021.
- The Utility accepted donated water and sewer main from developers valued at approximately \$875,000 during 2021.

2020 Financial Highlights

The Utility's combined net position increased to \$207.5 million from \$203.1 million. Events that had significant impact on the financial statements were:

- Operating revenues decreased approximately \$227,000 or 0.8% from 2019 while operating expenses decreased \$1.46 million or 5.7% from 2019. This resulted in an increase of approximately \$1.23 million or 60.6% in operating income compared to 2019.
- The Utility awarded contracts for water main relays totaling approximately \$1.5 million for various locations within the City of Kenosha. A contract was also awarded in the amount of \$770,000 for improvements to the Industrial Park Lift Station.
- Two projects completed at the wastewater treatment plant totaled approximately \$2.25 million;
 \$1.33 million for an upgrade to the aeration system blowers and \$922,000 to replace the cover of digester #2.
- The Utility received grants of approximately \$209,000 for privately-owned lead service line replacement from the State of Wisconsin Safe Drinking Water Lead Service Line Principal Forgiven Assistance Program. This allowed the Utility to pay 100% of the cost of most residential, privately-owned lead services lines replaced during 2020. In addition, the Utility replaced 125 Utility-owned lead service lines during 2020.
- The Utility accepted donated water and sewer main from developers valued at approximately \$1.8 million during 2020.

Overview of Financial Statements

This annual report includes this management's discussion and analysis report, the independent auditor's report, and the basic financial statements of the Utility. The financial statements also include notes that explain in more detail some of the information in the financial statements. Management's Discussion and Analysis (MD&A) serves as an introduction to, and should be read in conjunction with the basic audited financial statements and supplementary schedules. The MD&A represents management's examination and analysis of the Utility's financial condition and performance.

The financial statements report information about the Utility using full accrual accounting methods as utilized by similar business activities in the private sector. The financial statements include a statement of net position; a statement of revenues, expenses, and changes in net position; a statement of cash flows, notes to the financial statements, required supplementary information and supplementary schedules.

The **statement of net position** presents the financial position of the Utility on a full accrual historical cost basis. The statement of net position presents information on all of the Utility's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference reported as net position. This statement provides information about the nature and amount of investments in resources (assets), unamortized portion of changes in net pension and net OPEB asset/liability (asset/liability) and the obligations to Utility creditors (liabilities). Over time, increases and decreases in net position is an indicator of whether the financial position of the Utility is improving or deteriorating. It also provides the basis for evaluating the capital structure and assessing the liquidity and financial flexibility of the Utility.

While the statement of net position provides information about the nature and amount of resources and obligations at year-end, the **statement of revenues**, **expenses**, **and changes in net position** presents the results of the business activities over the course of the fiscal year and information as to how the net position changed during the year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. This statement measures the success of the Utility's operations over the past year and can be used to determine whether the Utility has successfully recovered all its costs through its user fees and other charges, as well as the Utility's profitability and credit worthiness.

The **statement of cash flows** presents changes in cash and cash equivalents, resulting from operating, financing, and investing activities. It provides answers to such questions as where did cash come from, what was cash used for and what was the change in the cash balance during the reporting period.

The **notes to the financial statements** provide required disclosures and other information that are essential to a full understanding of material data provided in the statements. The notes present information about the Utility's accounting policies, significant account balances and activities, material risks, obligations, commitments, contingencies, and subsequent events, if any.

The **required supplementary schedules**, provide more details regarding the funding status and progress of the Other Post Employment Benefit and Pension plans.

The **supplementary schedules** provide more detail than the preceding statements. A Schedule of Capital Assets is provided for the Water, Sewerage, and Household Hazardous Waste units. Detailed operating revenue and expense schedules are provided as well as the water tax equivalent calculation.

Summary of Organization and Business

The Kenosha Water Utility's mission is:

"Providing and Protecting Kenosha's Greatest Natural Resource – Water"

The Kenosha Water Utility (KWU) provides water and wastewater service to more than 100,000 persons in the greater Kenosha area, including the City of Kenosha, Villages of Pleasant Prairie, Somers and Bristol, and the Town of Somers. The Kenosha Water Utility also provides a monthly household hazardous waste collection service for City of Kenosha residents.

The Kenosha Water Utility is a municipally-owned, fiscally-independent public utility organized under authority of Section 66.0805 of the Wisconsin State Statutes and Chapter XXXII of the City of Kenosha Code of General Ordinances. The Utility is an enterprise fund of the City of Kenosha and is solely financed by service charges operating like a private business entity. The Utility has no taxing power and receives no tax revenues from the City of Kenosha. Operational and maintenance costs are funded from customer fees and charges. The acquisition and construction of capital assets are funded by capital (cash and systems) contributions from customers, developers, federal and state grants and loans, bond sales, and Utility revenues.

The Board of Water Commissioners is composed of six aldermen appointed under authority of Section 1.06H of the City of Kenosha Code of General Ordinances. The powers and duties of the Board of Water Commissioners include establishing policy, adopting rules and regulations, adopting an annual budget, establishing rates and fees, and approving contracts and agreements. The management and operation of the Water Utility is under the direction of the General Manager who is appointed by the Board of Water Commissioners.

Surface water from Lake Michigan has been Kenosha's source of water since 1894. Lake Michigan water is valued for both its quality and quantity. The Utility provides reliable high quality potable water used for drinking, irrigation, fire protection, and other purposes. The wastewater treatment plant provides primary and secondary treatment with disinfection in accordance with permits from the State of Wisconsin Department of Natural Resources. The treated wastewater is discharged to Lake Michigan and the solids are transported to a landfill. Both plants are in compliance with all state and federal regulations. The Household Hazardous Waste program was established in 1992 and provides for a monthly drop-off service to city residential customers; wastes are disposed of by licensed wastehaulers.

Financial Analysis of the Utility

The Utility's financial condition is consistent with prior years with adequate liquid assets, reliable up to date facilities, and systems to meet demand as well as a reasonable level of unrestricted net assets. Management feels that the current financial condition, technical support staff capabilities and operating and expansion plans will meet anticipated customer needs.

The condensed financial information and associated narrative are intended to provide additional information that is essential to the full understanding of the data provided in the audited financial statements and associated notes.

In 2021, total net position increased \$4.90 million or 2.4%. This is due to combined net income, before capital contributions, of the water, sewerage, and household hazardous waste units of \$3.30 million, an increase of 103.7% from 2020 and capital contributions of approximately \$1.6 million. Capital contributions consisted of approximately \$723,000 in assessments and impact fees and \$875,000 of donated infrastructure.

In 2020, total net position increased \$4.38 million or 2.2%. This is due to combined net income, before capital contributions, of the water, sewerage, and household hazardous waste units of \$1.62 million, an increase of 176.3% from 2019 and capital contributions of \$2.76 million. Capital contributions consisted of approximately \$964,000 in assessments and impact fees and \$1.8 million of donated infrastructure.

In 2021, total assets increased approximately \$6.67 million. Capital assets increased \$7.20 million while construction in progress decreased \$672,000; accumulated depreciation increased \$5.28 million. Current, restricted and other assets increased approximately \$5.42 million or 10.3%.

In 2020, total assets increased approximately \$7.66 million. Capital assets increased \$7.19 million while construction in progress increased \$2.27 million; accumulated depreciation increased \$5.16 million. Current, restricted and other assets increased approximately \$3.36 million or 6.8%.

The Water, Sewerage, and Household Hazardous Waste units are self-supporting divisions. Net assets of one division are not permanently used by other divisions.

Condensed Summary of Revenues, Expenses and Changes in Fund Net Position

Revenues from operations fall into four general categories: water service, sewerage service, household hazardous waste and other charges. Other charges include penalty fees and charges for miscellaneous billed services.

The number of metered customers increased 0.1% during 2021; water consumption increased 6.2%. Water service revenues increased approximately \$958,000 or 7.8%. Sewerage service revenues increased approximately \$804,000 or 7.4%. The increase in water service revenues is due to increased water consumption by all customer classes; the increase in sewerage service revenues is attributable to increased sewage flow by the commercial and public customer classes, increased sewer service surcharges to industrial customers and an increase in sewer service charges to other municipalities.

Operating expenses increased 3.9% or approximately \$0.95 million during 2021. Water Unit operations expenses increased 25.6% or approximately \$1.44 million due to increased costs for customer-owned lead service replacements (offset by an increase in grant revenue), an increase in the cost of maintenance of water mains and hydrants and decreased costs for water treatment equipment maintenance. Sewerage Unit operation expenses increased 11.6% or approximately \$790,000 mainly due to increases in the cost of power and maintenance expenses of wastewater treatment plant equipment, increased cost for collection system and cleaning and inspection expenses and increases in engineering services expenses. Operating expenses in the Household Hazardous Waste Unit decreased approximately \$25,000 or 14.8% due to decreased hazardous waste disposal costs and administrative wage and benefit expenses. Customer accounting and collecting, administrative and general expenses for all units decreased approximately \$1.16

million or 20.4% due mainly to decreased employee benefit expense, customer accounting and collection expenses and an increase in regulatory commission expense related to docket 2820-WR-107. Depreciation expense for all units decreased \$95,000 – a decrease of approximately \$51,000 for the Water Unit and a decrease of approximately \$44,000 for the Sewerage Unit - or 1.6%.

Operating income for 2021 increased 30.1% or approximately \$982,000. Nonoperating revenues increased 95.4% or approximately \$648,000 due to increased grant revenue of \$1.067 million, decreased net investment income of \$428,000 and increased other miscellaneous revenues of \$9,000; nonoperating expenses increased approximately \$65,000 due to increases in property losses and amortization of non-utility property.

The number of metered customers increased 0.2% during 2020. Water consumption increased 3.2%. Water service revenues increased approximately \$331,000 or 2.8%. Sewerage service revenues decreased approximately \$391,000 or 3.5%. The increase in water service revenues is due to increased water consumption by the residential customer class and sales to other municipalities; the decrease in sewerage service revenues is attributable to decreased sewage flow by the commercial and public customer classes and a decrease in sewer service charges to other municipalities.

Operating expenses decreased 5.7% or approximately \$1.46 million during 2020. Water Unit operations expenses decreased 9.0% or \$553,000 due to decreased costs for power and pumping maintenance, maintenance of reservoirs and standpipes and employee benefits and insurance expense. Sewerage Unit operation expenses decreased 2.3% or approximately \$160,000 mainly due to decreases in maintenance expenses of wastewater treatment plant structures and equipment, increased cost for collection system expenses and decreases in engineering services expenses. Operating expenses in the Household Hazardous Waste Unit decreased approximately \$7,400 or 4.1% due to decreased administrative wage and benefit expenses. Customer accounting and collecting, administrative and general expenses for all units decreased approximately \$702,000 or 11.0% due mainly to decreased employee benefit and insurance expense. Depreciation expense for all units decreased approximately \$38,000 – a decrease of approximately \$379,000 for the Water Unit and an increase of approximately \$341,000 for the Sewerage Unit - or 0.6%.

Operating income for 2020 increased 60.6% or approximately \$1.23 million. Nonoperating revenues decreased 16.7% or approximately \$136,000 due to decreased net investment income of \$227,000 and increased grant and other miscellaneous revenues of \$91,000; nonoperating expenses decreased 80.9% or approximately \$4,700 due to decreases in interest expense and amortization on long-term debt.

For 2021, the increase in net position of \$4.90 million is approximately \$0.51 million more than the previous year's increase of \$4.39 million or an increase of 11.8%. This is attributable to an increase in both operating income and nonoperating income and decreases in assessments, impact fees and infrastructure donations from developers. The increase (decrease) in net position attributable to the Water, Sewerage and Household Hazardous Waste Units were approximately \$2,918,000, \$1,953,000 and \$33,000, respectively.

For 2020, the increase in net position of \$4.39 million is approximately \$3.01 million more than the previous year's increase of \$1.38 million or an increase of 218.8%. This is attributable to a decrease in operating income and increases in nonoperating income, assessments, impact fees and infrastructure donations from developers. The increase (decrease) in net position attributable to the Water, Sewerage and Household Hazardous Waste Units were approximately \$2,585,000, \$1,795,000 and \$7,900, respectively.

The Utility had combined investment in capital assets of \$298.9 million at the end of 2021. Construction in progress decreased \$0.67 million. Accumulated depreciation totaled approximately \$132.2 million resulting in a net book value of \$166.7 million. In 2021, the Utility recorded combined depreciation expense of approximately \$5.79 million. More detailed information about capital assets may be found in the supplemental information section report – Schedule of Capital Assets – for the Water, Sewerage, and Hazardous Waste Units as well as in Note 4 to the financial statements.

Long-Term Debt

The Utility had no long-term debt outstanding as of December 31, 2021.

Detailed schedules concerning other long-term debt activity may be found in note 5 to the audited financial statements.

Economic Factors and the Utility's Future

The utility, in its continuing commitment to provide a safe water supply to our customers has undertaken a multi-year project to replace all Utility-owned lead water services at Utility expense. In order to encourage the replacement of privately-owned lead water services, the Utility filed docket 2820-LS-100 with the Public Service Commission of Wisconsin to create a grant and loan program to assist with replacement of privately-owned lead water services; this request was approved on August 31, 2018.

The Utility replaced or abandoned 143 Utility-owned lead water services during 2021; property owners replaced more than 311 privately-owned lead water services during 2021. The Utility estimates that there are 8,325 Utility-owned lead water services and up to 4,000 privately-owned water services that may contain lead.

The Public Service Commission of Wisconsin approved a rate increase effective February 1, 2022 with rates designed to allow the utility a 4.90% rate of return on average net rate base. The increase was necessitated by the need to fund replacement of membrane filtration equipment as well as increased operational costs.

The Utility applied to the State of Wisconsin Department of Natural Resources for monies from the State of Wisconsin Save Drinking Water Lead Service Line Principal Forgiven Assistance Program. The Utility has approval to apply for additional monies for the 2022 construction season. Commercial, public and industrial privately-owned lead water service line replacements will still be eligible for grants and loans as outlined in docket 2820-LS-100.

There are no restrictions, commitments, or other limitations that would significantly affect the availability of fund resources for future use.

Contacting the Utility's Financial Management

This financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of the Utility's finances and to demonstrate the Utility's accountability for the money it receives. If you have questions about this report or need additional information, please contact the Kenosha Water Utility, Director of Business Services, 4401 Green Bay Road, Kenosha, Wisconsin 53144.

(An Enterprise Fund of the City of Kenosha, Wisconsin)

NOTES TO BASIC FINANCIAL STATEMENTS

December 31, 2021 and 2020

(1) Summary of Significant Accounting Policies

Nature of Business

The City of Kenosha Water Utility (Utility) is an enterprise fund of the City of Kenosha, Wisconsin (City) and is comprised of three units: Water, Sewerage, and Household Hazardous Waste. The Utility is governed by the City of Kenosha Board of Water Commissioners (Board) consisting of six members appointed by the Mayor of the City of Kenosha.

These financial statements present only the City of Kenosha Water Utility and are not intended to present the financial position and results of operations of the City of Kenosha, Wisconsin in conformity with accounting principles generally accepted in the United States of America.

The Water Unit operates, maintains, and constructs the City's water system. Services are financed primarily by user charges. The Water Unit charges rates and operates under service rules established by the Public Service Commission of Wisconsin (PSCW). Accounting records of the Water Unit are maintained in accordance with the Uniform System of Accounts prescribed by the PSCW.

The Sewerage Unit operates, maintains, and constructs the City's sewage collection and treatment system. Services are financed primarily by user charges. Service rates and rules are established by the Board.

The Household Hazardous Waste Unit collects, stores, and disposes of residential household hazardous waste. Services are financed primarily by user charges. Service rates and rules are established by the Board.

Measurement Focus, Basis of Accounting, and Basis of Presentation

The accounting policies of the Utility conform to U.S. generally accepted accounting principles (GAAP) for enterprise funds as formulated by the Governmental Accounting Standards Board. The accounts of the Utility, which are organized as an enterprise fund, are used to account for the Utility's activities that are financed and operated in a manner similar to a private business enterprise. Accordingly, the Utility maintains its records on the full accrual basis of accounting. Revenues from operations, investments, and other sources are recorded when earned. Expenses (including depreciation and amortization) of providing services to the public are accrued when incurred.

Nonexchange transactions, in which the Utility receives value without directly giving equal value in return, include grants and contributions. On an accrual basis, revenue from grants and contributions is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, and expenditure requirements, in which the resources are provided to the Utility on a reimbursement basis.

(An Enterprise Fund of the City of Kenosha, Wisconsin)

NOTES TO BASIC FINANCIAL STATEMENTS

December 31, 2021 and 2020

(1) Summary of Significant Accounting Policies (Continued)

Cash and Cash Equivalents

Cash and cash equivalents, including restricted cash and cash equivalents, are considered to have original maturities of three months or less from the date of purchase.

Receivables/Payables

Transactions between the Utility and other funds of the City that are representative of lending/borrowing arrangements outstanding at year end are referred to as advance to/from the municipality. All other outstanding balances between the Utility and other funds of the City are reported as due to/from other funds.

The Utility has the right under Wisconsin statutes to place special assessments and delinquent water and sewerage bills on the tax roll for collection. As such, no allowance for uncollectible customer accounts is considered necessary.

Materials and Supplies

Inventories of materials and supplies are generally used for construction, operation, and maintenance work, and are not for resale. They are valued at the lower of cost or market utilizing the average cost method and charged to construction and expense when used.

Restricted Assets

Amounts collected for the Storm Water Utility, which are due to the City, are considered restricted.

The Pension Asset – Wisconsin Retirement System represents the Utility's allocation of the City's proportionate share of the overfunded status of the Wisconsin Retirement System. These assets are held by the Wisconsin Retirement System in trust and their use is limited to the settlement of pension related obligations.

When both restricted and unrestricted resources are available for use, the Utility's policy is to use restricted resources first, then unrestricted resources as they are needed.

Other Current Assets

Other current assets include the current portion of special assessments receivable, interest receivable and prepaid expenses.

(An Enterprise Fund of the City of Kenosha, Wisconsin)

NOTES TO BASIC FINANCIAL STATEMENTS

December 31, 2021 and 2020

Investments

Investment of Utility funds is restricted by Wisconsin Statutes to:

- Time deposits in any credit union, bank, savings bank, trust company, or savings and loan association authorized to transact business in the state which matures in three years or less.
- Bonds or securities of any county, city, drainage district, technical college district, village, town, or school district of the state. Also, bonds issued by a local exposition district, local professional baseball park district, local professional football stadium district, local cultural arts district or the University of Wisconsin Hospitals and Clinics Authority.
- Bonds or securities issued or guaranteed by the federal government.
- The Wisconsin Local Government Investment Pool.
- Any security maturing in seven years or less and having the highest or second highest rating category of a nationally recognized rating agency.
- Securities of an open-end management investment company or investment trust, subject to various conditions and investment options.
- Repurchase agreements with public depositories, with certain conditions.

Investments, other than US Treasury Notes with original maturities of less than one year, are reported at fair value, which is the amount at which an investment could be exchanged in a current transaction between willing parties. Fair values are based on quoted market prices. Adjustments necessary to report investments at fair value are recorded in the statement or revenues, expenses and change in net position as increases or decreases in investment income. U.S. Treasury notes are carried at amortized cost. Non-negotiable Certificates of Deposit are deposits reported at cost and are not subject to fair value measurement.

Special Assessments and Unbilled Assessments

Unbilled assessments represent assessments that have been levied upon properties within the City that are not currently connected to the Utility system. This balance also includes assessments levied on properties outside the boundaries of the City which are not collectible until and unless the property connects to the Utility system or is attached to the City. Amounts reported as special assessments represent amounts levied that are currently payable.

NOTES TO BASIC FINANCIAL STATEMENTS

December 31, 2021 and 2020

(1) Summary of Significant Accounting Policies (Continued)

Capital Assets

Capital assets are defined by the Utility as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Capital assets are recorded at cost or the acquistion value at the time of contribution to the Utility. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. Interest incurred during the construction phase is expensed in the year incurred.

Capital assets are depreciated using the straight-line method over the following useful lives:

	Useful life (years)
Water unit:	
Production intake	31-58
Production pumping	22-31
Production purification	16-31
Transmission and distribution	18-77
General plant and equipment	5-17
Sewerage unit:	
Collection system	20-100
Collection system pumping	20-31
Treatment and disposal	15-50
Engineering equipment	5-17
General plant and equipment	5-50
Household hazardous waste unit:	
Structures and improvements	25
Equipment	12

Compensated Absences

Vacation

The Utility compensates all employees upon termination for unused vacation earned in the current year. Employees may carry-over up to two weeks of unused vacation into the next calendar year to be used by June 30 of that year; any unused vacation carry-over not used by June 30 is forfeited.

(An Enterprise Fund of the City of Kenosha, Wisconsin)

NOTES TO BASIC FINANCIAL STATEMENTS

(1) Summary of Significant Accounting Policies (Continued)

Compensated Absences (Continued)

Sick Leave

Utility employees are entitled to sick leave at a rate of one day per month of full-time service. Sick leave is paid upon normal retirement or disability up to a maximum of 66 days. Terminated employees are not compensated for unused sick leave. The balance sheets of the Water and Sewerage Units contain a liability for estimated accrued sick leave and associated fringe benefits.

Other Postemployment Benefits (OPEB) Retiree Health Insurance

The City provides post-retirement health care benefits to full-time employees. GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits other than Pension, was implemented by the Utility for the year ended December 31, 2018. The most notable change is that the Net OPEB liability will show as an item on the financial statement rather than a footnote entry.

Regularly appointed full-time employees retiring under the provisions of the Wisconsin Retirement System (WRS) with greater than or equal to fifteen years of service and who attained the age of sixty at the time of retirement, or regularly appointed full-time employees retiring under the provisions of the WRS with greater than or equal to eight years of service but less than fifteen years of service and who attained the age of sixty-two at the time of retirement, may retain City health insurance for themselves and their spouses and eligible dependents until the retiree becomes eligible for other paid health insurance, becomes eligible for Medicare, or until the retiree attains the age of sixty-five, whichever occurs first.

Other Postemployment Benefits (OPEB) Retiree Life Insurance

The fiduciary net position of the Local Retiree Life Insurance Fund (LRLIF) has been determined using the flow of economic resources measurement focus and the accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to other post-employment benefits, OPEB expense, and information about the fiduciary net position of the LRLIF and additions to/deductions from LRLIF's fiduciary net position have been determined on the same basis as they are reported by LRLIF. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTES TO BASIC FINANCIAL STATEMENTS

December 31, 2021 and 2020

(1) Summary of Significant Accounting Policies (Continued)

Equity Classifications

The difference between all other elements in a statement of financial position is net position. Net position is displayed in three components:

- a. Net investment in capital assets Consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt are also included in this component of net position. Unspent related debt proceeds or deferred inflows of resources is excluded from the calculation of net investment in capital assets.
- b. Restricted net position Consists of restricted assets reduced by liabilities related to those assets. Generally, a liability relates to restricted assets if the asset results from a resource flow that also results in the recognition of a liability or if the liability will be liquidated with the restricted assets reported.
- c. Unrestricted net position The net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted components of net position.

Long-term Obligations

Long-term debt and other obligations are reported as Utility liabilities. Long-term debt is reported net of any premium or discount. Issuance costs are reported as expenses in the year incurred.

Pensions

For purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Wisconsin Retirement System (WRS) and additions to/deductions from WRS' fiduciary net position have been determined on the same basis as they are reported by WRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value.

Charges for Services

Billings for water and sewerage services are issued monthly to high-consumption users and bimonthly to all other customers. Hazardous waste charges are billed bimonthly to all residential customers. Revenues are recognized on the accrual basis and include amounts for service rendered but not billed.

(An Enterprise Fund of the City of Kenosha, Wisconsin)

NOTES TO BASIC FINANCIAL STATEMENTS

December 31, 2021 and 2020

(1) Summary of Significant Accounting Policies (Continued)

Classification of Revenues

The Utility has classified its revenues and expenses as either operating or nonoperating. Operating revenues and expenses arise from activities that have the characteristics of exchange transactions, including providing water, sewerage, and hazardous waste services. Nonoperating revenues and expenses arise from activities that have the characteristics of nonexchange transactions, such as those related grants and contributions. Investment activities are also classified as nonoperating.

Taxes

The Water Unit records an annual payment in lieu of taxes (PILOT) based on the value of its plant and materials and supplies inventory using the current assessment ratio and local and school portion of the mill rate. Municipal utilities are exempt from federal and state income taxes. A portion of the payment is allocated to the Sewerage Unit. The payment is recorded as a transfer out to the City's General Fund.

Use of Estimates

The preparation of the basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities and the reported amounts of revenues and expenses. Actual results could differ from those estimates.

New Accounting Pronouncements

In June 2017, the GASB issued GASB Statement No. 87. *Leases*, which modifies the guidance regarding the classification, accounting and financial reporting of leases. The Utility will implement the requirements of this standard beginning with the year ending December 31, 2022, in accordance with GASB Statement 95 *Postponement of the Effective Date of Certain Authoritative Guidance*. The impact of this standard on the Utility's financial statements is not yet determined.

In May 2019, the GASB issued GASB Statement No. 91, *Conduit Debt Obligations*, which addresses certain accounting and financial reporting aspects of conduit debt obligations. The Utility implemented the requirements of this standard beginning with the year ended December 31, 2021. The adoption of this statement had no impact on previously reported net position.

In January 2020, the GASB issued GASB Statement No. 92, *Omnibus 2020*, which addresses a variety of accounting and financial report items, including specific item related to OPEB reporting and asset retirement obligations. This statement is effective for reporting periods beginning after June 15, 2021. The impact of this standard on the Utility's financial statements is not yet determined.

(An Enterprise Fund of the City of Kenosha, Wisconsin)

NOTES TO BASIC FINANCIAL STATEMENTS

December 31, 2021 and 2020

(1) Summary of Significant Accounting Policies (Continued)

New Accounting Pronouncements (Continued)

In March 2020, the GASB issued GASB Statement No. 93, *Replacement of Interbank Offer Rates*, which addresses the use of future interbank offer rates. This statement is effective for reporting periods beginning after June 15, 2021. The impact of this standard on the Utility's financial statements is not yet determined.

In May 2019, the GASB issued GASB Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*, which addresses accounting and financial reporting of public-private and public-public partnership and availability payment arrangements. This statement is effective for reporting periods beginning after June 15, 2022. The impact of this standard on the Utility's financial statements is not yet determined.

In May 2020, the GASB issued GASB Statement No. 96, *Subscription-Based Information Technology Arrangements*, which addresses accounting and financial reporting subscription-based information technology arrangements for government end users. This statement is effective for reporting periods beginning after June 15, 2022. The impact of this standard on the Utility's financial statements is not yet determined.

In June 2020, the GASB issued GASB Statement No. 97, Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans, which addresses accounting and financial reporting for deferred compensation plans that meet the requirements of IRS Code Section 457. This statement is effective for reporting periods beginning after June 15, 2021. The impact of this standard on the Utility's financial statements is not yet determined.

In October 2021, the GASB issued GASB Statement No. 98, *The Annual Comprehensive Financial Report*, which updates the naming of the Annual Comprehensive Financial Report. The Utility implemented the requirements of this standard beginning with the year ended December 31, 2021. The adoption of this statement had no impact on previously reported net position.

In April 2022, the GASB issued GASB Statement No. 99, *Omnibus 2022*, which address various aspects of financial account and reporting including, but not limited to, certain aspects of reporting related to derivatives instruments, leases, and the use of LIBOR. This statement has various effective dates for different items addressed beginning its issuance date through reporting periods ending after June 15, 2023. The impact of this standard on the Utility's financial statements is not determined.

(An Enterprise Fund of the City of Kenosha, Wisconsin)

NOTES TO BASIC FINANCIAL STATEMENTS

December 31, 2021 and 2020

(2) Cash and Investments

The Utility, as an enterprise fund of the City, maintains separate cash and investment accounts at the same financial institutions utilized by the City. A summary of cash and investments as of December 31, 2021 and 2020 are as follows:

		2021		2020
Cash on hand	\$	2.200	\$	2.200
Demand deposits	Ψ	8,963,235	Ψ	8,243,053

Investments		10,072,660		1,136,109
Total cash, cash equivalents and investments	\$	41,663,638	\$	37,386,409

Investment Policy

The Utility's investments are made in accordance with the Utility's investment policy which is similar to the City of Kenosha's investment policies and the Wisconsin Statutes. A summary of authorized investments is included in Note 1.

Custodial Credit Risk

Custodial credit risk for deposits is the risk that in the event of a financial institution failure, the Utility's deposits may not be returned. Deposits of governmental entities held by an official custodian in banks located in the same state as the governmental entity are insured by the Federal Deposit Insurance Corporation (FDIC) in the amount of \$250,000 for time and savings deposits and \$250,000 for demand deposits per financial institution. Deposits are also insured for \$400,000 by the State Deposit Guarantee Fund. The investment policies require collateralization of deposits at financial institutions when the total amount of such deposits exceeds the insured limits. Federal depository insurance and the State of Wisconsin Guarantee Fund insurance apply to all municipal accounts, and accordingly, the amount of insured funds is not determinable for the Utility alone.

(An Enterprise Fund of the City of Kenosha, Wisconsin)

NOTES TO BASIC FINANCIAL STATEMENTS

December 31, 2021 and 2020

(2) Cash and Investments (Continued)

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations to the Utility. The Utility does not have a formal policy addressing this type of investment risk.

As of December 31, 2021 and 2020, the Utility was exposed to credit risk with investments in the following:

	2021	2020	Moody's
Investment Type	Fair Value	Fair Value	Rating
Corporate Bonds	\$ 1,046,543	\$ 500,609	Aaa
Corporate Bonds	680,269	-	Aa3
Corporate Bonds	3,323,523	-	Aa2
Corporate Bonds	-	1,281,523	Aa1
Corporate Bonds	668,112	1,757,947	A1
Total Fair Value of Investments			
subject to credit risk	\$ 5,718,447	\$ 3,540,079	

Interest Rate Risk

Interest rate risk is the risk that the fair value of investments will decrease as a result of an increase in interest rates. As of December 31, 2021, the Utility's investments are U.S. Treasury notes and corporate bonds with maturities of less than two years as follows:

	Carrying	Less			More
A vestment Type	Value	than 1	1 to 5	6 to 10	than 10
g.S. Treasury notes	\$ 26,290,556	\$ 16,881,735	\$ 9,408,821	\$ -	\$ -
Corporate Bonds	5,718,447	5,038,178	680,269	-	-

NOTES TO BASIC FINANCIAL STATEMENTS

December 31, 2021 and 2020

(2) Cash and Investments (Continued)

Fair Value Measurements

The Utility uses fair value measurements to record fair value adjustments to certain assets and liabilities and to determine fair value disclosures.

The Utility follows an accounting standard that defines fair value, establishes a framework for measuring fair value, establishes a fair value hierarchy based on the quality of inputs used to measure fair value, and requires expanded disclosures about fair value measurements. In accordance with this standard, the Utility has categorized its investments, based on the priority of the inputs to the valuation technique, into a three-level fair value hierarchy.

The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure the financial instruments fall within different levels of the hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement of the instrument.

Financial assets and liabilities recorded on the combined statements of financial position are categorized based on the inputs to the valuation techniques as follows:

Level 1 – Financial assets and liabilities are valued using inputs that are unadjusted quoted prices in active markets accessible at the measurement date of identical financial assets and liabilities.

Level 2 – Financial assets and liabilities are valued based on quoted prices for similar assets, or inputs that are observable, either directly or indirectly for substantially the full term through corroboration with observable market data.

Level 3 – Financial assets and liabilities are valued using pricing inputs which are unobservable for the asset, inputs that reflect the reporting entity's own assumptions about the assumptions market participants and would use in pricing the asset.

The Utility has the following assets that are subject to fair value measurements as of December 31, 2021:

	Fair Value	Level 1	Level 2	Level 3	empted from Disclosure
Corporate bonds	\$ 5,718,447	\$ -	\$ 5,718,447	\$ -	\$ -
U.S. Treasury notes	26,290,556		9,408,821	-	16,881,735
Total Fair Value of Investments	\$ 32,009,003	\$ -	\$ 15,127,268	\$ -	\$ 16,881,735

(An Enterprise Fund of the City of Kenosha, Wisconsin)

NOTES TO BASIC FINANCIAL STATEMENTS

(7) Pensions

General Information about the Pension Plan

Plan description

The WRS is a cost-sharing multiple-employer defined benefit pension plan. WRS benefits and other plan provisions are established by Chapter 40 of the Wisconsin Statutes. Benefit terms may only be modified by the legislature. The retirement system is administered by the Wisconsin Department of Employee Trust Funds (ETF). The system provides coverage to all eligible State of Wisconsin, local government and other public employees. All employees, initially employed by a participating WRS employer on or after July 1, 2011, and expected to work at least 1,200 hours a year (880 hours for teachers and school district educational support employees) and expected to be employed for at least one year from employee's date of hire are eligible to participate in the WRS.

ETF issues a standalone Annual Comprehensive Financial Report (ACFR), which can be found at http://etf.wi.gov/publications/cafr.htm.

Vestina

For employees beginning participation on or after January 1, 1990, and no longer actively employed on or after April 24, 1998, creditable service in each of five years is required for eligibility for a retirement annuity. Participants employed prior to 1990 and on or after April 24, 1998, and prior to July 1, 2011, are immediately vested. Participants who initially became WRS eligible on or after July 1, 2011, must have five years of creditable service to be vested.

Benefits provided

Employees who retire at or after age 65 (54 for protective occupations, 62 for elected officials and executive service retirement plan participants, if hired on or before December 31, 2016) are entitled to a retirement benefit based on a formula factor, their final average earnings, and creditable service.

Final average earnings is the average of the participant's three highest annual earnings periods. Creditable service includes current service and prior service for which a participant received earnings and made contributions as required. Creditable service also includes creditable military service. The retirement benefit will be calculated as a money purchase benefit based on the employee's contributions plus matching employer's contributions, with interest, if that benefit is higher than the formula benefit.

Vested participants may retire at age 55 (50 for protective occupations) and receive an actuarially-reduced benefit. Participants terminating covered employment prior to eligibility for an annuity may withdraw either received employee-required contributions plus interest as a separation benefit or leave contributions on deposit and defer application until eligible to receive a retirement benefit.

The WRS also provides death and disability benefits for employees.

Post-Retirement Adjustments

The Employee Trust Funds Board may periodically adjust annuity payments from the retirement system based on annual investment performance in accordance with s. 40.27, Wis. Stat. An increase (or decrease) in annuity payments may result when investment gains (losses), together with other actuarial experience factors, create a surplus (shortfall) in the reserves, as determined by the system's consulting actuary. Annuity increases are not based on cost of living or other similar factors. For Core annuities, decreases may be applied only to previously granted increases. By law, Core annuities cannot be reduced to an amount below the original, guaranteed amount (the "floor") set at retirement. The Core and Variable annuity adjustments granted during recent years are as follows:

Year	Core Fund Adjustment	Variable Fund Adjustment
2011	(1.2)	11.0
2012	(7.0)	(7.0)
2013	(9.6)	9.0
2014	4.7	25.0
2015	2.9	2.0
2016	0.5	(5.0)
2017	2.0	4.0
2018	2.4	17.0
2019	0.0	(10.0)
2020	1.7	21.0

Contributions

Required contributions are determined by an annual actuarial valuation in accordance with Chapter 40 of the Wisconsin Statutes. The employee required contribution is one-half of the actuarially determined contribution rate for general category employees, including teachers, and Executives and Elected Officials. Starting January 1, 2016, the Executives and Elected Officials category was merged into the General Employee Category. Required contributions for protective employees are the same rate as general employees. Employers are required to contribute the remainder of the actuarially determined contribution rate. The employer may not pay the employee required contribution unless provided for by an existing collective bargaining agreement.

The Kenosha Water Utility participates in the Plan as part of the City of Kenosha. The City has determined that Kenosha Water Utility's allocation of the City's proportional share of participation in the Pension to be 10.91% and 10.39% for the year ended December 31, 2021 and 2020, respectively.

During the reporting period for the years ended December 31, 2021 and 2020, the WRS recognized contributions from the City of Kenosha including \$431,318 and \$420,249 of contributions from the Kenosha Water Utility, respectively.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At December 31, 2021, the Utility reported an asset of \$3,647,403 for its allocation of the City of Kenosha's proportionate share of the net pension asset. The net pension asset was measured as of December 31, 2020, and the total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of December 31, 2019, rolled forward

December 31, 2020. No material changes in assumptions or benefit terms occurred between the actuarial valuation date and the measurement date. The City's proportion of the net pension liability (asset) was based on the City's share of contributions to the pension plan relative to the contributions of all participating employers. The Utility's allocation of the City's proportion was determined by the City. At December 31, 2020, the Utility's allocated proportion was 0.05842258%, which was an increase of 0.00349396% from its proportion measured as of December 31, 2019.

At December 31, 2020, the Utility reported an asset of \$1,771,150 for its allocation of the City of Kenosha's proportionate share of the net pension liability. The net pension liability was measured as of December 31, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2018, rolled forward

December 31, 2019. No material changes in assumptions or benefit terms occurred between the actuarial valuation date and the measurement date. The City's proportion of the net pension liability (asset) was based on the City's share of contributions to the pension plan relative to the contributions of all participating employers. The Utility's allocation of the City's proportion was determined by the City. At December 31, 2019, the Utility's allocated proportion was 0.05492862%, which was a decrease of 0.00030619% from its proportion measured as of December 31, 2018.

NOTES TO BASIC FINANCIAL STATEMENTS

December 31, 2021 and 2020

(7) **Pensions** (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended December 31, 2021, the Utility recognized pension expense of (\$644,969).

For the year ended December 31, 2020, the Utility recognized pension expense of \$508,579.

At December 31, 2021, the Utility reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferr	ed Outflows	Deferred Inflows		
	of F	Resources	of Resources		
Differences between expected and actual experience	\$	5,278,912	\$	1,137,068	
Changes in assumptions		82,730		-	
Net differences between projected and actual earnings on pension plan investments		-		6,847,702	
Changes in proportion and differences between employer contributions and proportionate share of contributions		7,102		3,287	
Employer contributions subsequent to the measurement date		431,318			
Total	\$	5,800,062	\$	7,988,057	

\$431,318 reported as deferred outflows related to pension resulting from the WRS Employer's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability (asset) in the year ended December 31, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

	Net Outflows/(Inflows)
Year ended December 31	of Resources
2022	(\$ 674,322)
2023	(182,435)
2024	(1,238,498)
2025	(524,058)
2026	_

(7) **Pensions** (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At December 31, 2020, the Utility reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	 rred Outflows Resources	 ferred Inflows f Resources
Differences between expected and actual experience Changes in assumptions	\$ 3,362,047 138,020	\$ 1,682,479 -
Net differences between projected and actual earnings on pension plan investments Changes in proportion and differences between employer	-	3,620,859
contributions and proportionate share of contributions Employer contributions subsequent to the measurement	1,588	6,593
date	 420,249	 -
Total	\$ 3,921,904	\$ 5,309,931

Actuarial assumptions.

The total pension asset in the December 31, 2020, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Valuation Date: December 31, 2019
Measurement Date of Net Pension Liability (Asset): December 31, 2020

Actuarial Cost Method: Entry Age

Asset Valuation Method: Fair Market Value

Long-Term Expected Rate of Return: 7.0% Discount Rate: 7.0%

Salary Increases

Inflation: 3.0%
Seniority/Merit: 0.1% - 5.6%

Mortality: Wisconsin 2018 Mortality Table

Post-retirement Adjustments*: 1.9%

Actuarial assumptions are based upon an experience study conducted in 2018 that covered a three-year period from January 1, 2015 to December 31, 2017. The total pension liability for December 31, 2020 is based upon a roll-forward of the liability calculated from the December 31, 2019 actuarial valuation.

^{*} No post-retirement adjustment is guaranteed. Actual adjustments are based on recognized investment return, actuarial experience and other factors. 1.9% is the assumed annual adjustment based on the investment return assumption and the post-retirement discount rate.

(An Enterprise Fund of the City of Kenosha, Wisconsin)

NOTES TO BASIC FINANCIAL STATEMENTS

December 31, 2021 and 2020

(7) **Pensions** (Continued)

Actuarial assumptions (continued)

The total pension liability in the December 31, 2019, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Valuation Date: December 31, 2018

Measurement Date of Net Pension Liability (Asset): December 31, 2019

Actuarial Cost Method: Entry Age

Asset Valuation Method: Fair Market Value

Long-Term Expected Rate of Return: 7.0% Discount Rate: 7.0%

Salary Increases

Inflation: 3.0%

Seniority/Merit: 0.1% - 5.6%

Mortality: Wisconsin 2018 Mortality Table

Post-retirement Adjustments*: 1.9%

Actuarial assumptions are based upon an experience study conducted in 2018 that covered a three-year period from January 1, 2015 to December 31, 2017. Based on this experience study, actuarial assumptions used to measure the total pension liability changed from prior year, including the discount rate, long-term expected rate of return, post-retirement adjustment, wage inflation rate, mortality and separation rates. The total pension liability for December 31, 2019 is based upon a roll-forward of the liability calculated from the December 31, 2018 actuarial valuation.

^{*} No post-retirement adjustment is guaranteed. Actual adjustments are based on recognized investment return, actuarial experience and other factors. 1.9% is the assumed annual adjustment based on the investment return assumption and the post-retirement discount rate.

(An Enterprise Fund of the City of Kenosha, Wisconsin)

NOTES TO BASIC FINANCIAL STATEMENTS

December 31, 2021 and 2020

(7) **Pensions** (Continued)

Long-term expected Return on Plan Assets

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following tables:

Asset Allocaton Targets and Expected Returns as of December 31, 2020

	Long-Term	Long-Term
Asset	Expected Nominal	Expected Real
Allocation %	Rate of Return %	Rate of Return %
51	7.2	4.7

NOTES TO BASIC FINANCIAL STATEMENTS

December 31, 2021 and 2020

(7) **Pensions** (Continued)

Single Discount rate

A single discount rate of 7.00% was used to measure the total pension liability for the current and prior year. This single discount rate was based on the expected rate of return on pension plan investments of 7.00% and a municipal bond rate of 2.00% (Source: Fixed-income municipal bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index's "20-year Municipal GO AA Index" as of December 31, 2020. In describing this index, Fidelity notes that the Municipal Curves are constructed using option-adjusted analytics of a diverse population of over 10,000 tax-exempt securities). Because of the unique structure of WRS, the 7.00% expected rate of return implies that a dividend of approximately 1.9% will always be paid. For purposes of the single discount rate, it was assumed that the dividend would always be paid. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments (including expected dividends) of current plan members. Therefore, the municipal bond rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Utility's allocation of the City's proportionate share of the net pension liability (asset) to changes in the discount rate. For the year ended December 31, 2021, the following presents the Utility's allocation of the City's proportionate share of the net pension liability (asset) calculated using the discount rate of 7.00 percent, as well as what the Utility's allocation of the City's proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00 percent) or 1-percentage-point higher (8.00 percent) than the current rate:

	1% E	Decrease to	Curre	ent Discount	1%	Increase to

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in separately issued financial statements available at http://etf.wi.gov/publications/cafr.htm.

Payables to the pension plan

The Utility's share of the City's payable to WRS as of December 31, 2021 and 2020, were \$40,091 and \$38,250, respectively.

(8) Other Postemployment Benefits – Health Insurance

The Utility participates in a single-employer defined benefit health care plan ("the Retiree Health Plan") administered by the City of Kenosha. The plan provides health insurance benefits for eligible retirees, their spouses and eligible dependents through the City's group health insurance plan, which -covers both active and retired members. Benefit provisions are established through personnel policy guidelines or past practice and state that eligible retirees, their spouses and eligible dependents receive healthcare insurance based on the following criteria:

- Regularly appointed full-time employees retiring under the provisions of the Wisconsin Retirement System (WRS) with greater than or equal to fifteen years of service may retain City health insurance, the full premium cost being paid by the City, from the first month following the retiree's sixtieth birthday, for a maximum of five years, or until the retiree becomes eligible for other paid health insurance, becomes eligible for Medicare, or until the retiree attains the age of sixty-five, whichever occurs first.
- Regularly appointed full-time employees retiring under the provisions of the WRS with greater than or equal to eight years of service but less than fifteen years of service may retain City health insurance, the full premium cost being paid by the City, from the first month following the retiree's sixty-second birthday, for a maximum of three years, or until

(An Enterprise Fund of the City of Kenosha, Wisconsin)

NOTES TO BASIC FINANCIAL STATEMENTS

December 31, 2021 and 2020

(8) Other Postemployment Benefits – Health Insurance (Continued)

the retiree becomes eligible for other paid health insurance, becomes eligible for Medicare, or until the retiree attains the age of sixty-five, whichever occurs first.

No assets are accumulated in a trust that meets the criteria of paragraph 4 of the GASB Statement No. 75.

Benefit provisions are established through personnel policies and generally result in the employer paying 100% of the health care costs – less plan deductibles and co-pays – as outlined above. Benefit provisions may be amended through changes in personnel policy guidelines by action of the City's Common Council. There is no contribution requirement since the Utility pays 100% of health care costs less plan deductibles and co-pays.

Employees covered by benefit terms. At December 31, 2021 and 2020, the following employees were covered by the benefit terms:

	<u>2021</u>	<u>2020</u>
Active employees	85	86
Retirees	_ 8_	_7_
Total	93	93

Total OPEB Liability, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources related to OPEB. For the year ended December 31, 2021 the valuation date and measurement date is December 31, 2020. For the year ended December 31, 2020 the valuation date is December 31, 2020 and rolled backward to the measurement date of December 31, 2019. The measurement date is the date as of which the total OPEB liability is determined.

The total OPEB liability for the years ended December 31, 2021 of \$2,858,256, was determined by an actuarial valuation as of the valuation date, calculated based on the discount rate and actuarial assumptions. The total OPEB liability for the year ended December 31, 2020 of \$2,597,622, was determined by an actuarial valuation date calculated based on the discount rate and actuarial assumptions, and was then projected backward to the measurement date.

For the years ended December 31, 2021 and 2020, the Utility recognized OPEB expense of \$40,057 and \$192,326, respectively.

At December 31, 2021, the Utility reported deferred inflows of resources and deferred outflows of resources related to OPEB from the following sources:

	 red Outflows Resources	Deferred Inflows of Resources		
Differences between expected and actual experience	\$ 215,422	\$	_	
Changes in assumptions	114,989		97,182

(8) Other Postemployment Benefits – Health Insurance (Continued)

Mortality rates were based on the following criteria:

Pre-retirement: This assumption applies to death while in service. Rates are based on the Wisconsin 2018 Mortality table (multiplied by 50% for males and females) as the base table and project future improvements with 2018 generational improvement scale (multiplied by 60%), as adopted by the Employee Trust Fund (ETF) Board in connection with the 2015-2017 Experience Study performed by the actuary for the Wisconsin Retirement System.

Post-retirement: This assumption applies to death of participants after retirement. Rates are based on the 2018 Mortality Table as the base table and project future improvements with 2018 generational improvement scale (multiplied by 60%), as adopted by the ETF Board in connection with the 2015-2017 Experience Study performed by the actuary for the Wisconsin Retirement System.

Post-disability: This assumption applies to death after disablement. Rates are based on the 2015-2017 Experience Study performed by the actuary for the Wisconsin Retirement System as the base table and project future improvements with 2018 generational improvement scale (multiplied by 60%), as adopted by the ETF Board in connection with the 2015-2017 Experience Study performed by the actuary for the Wisconsin Retirement System.

(9) Other Postemployment Benefits – Life Insurance

General Information about the Other Post-Employment Benefits – Life Insurance

Plan Description

The Local Retiree Life Insurance Fund (LRLIF) is a multiple-employer defined benefit OPEB plan. LRLIF benefits and other plan provisions are established by Chapter 40 of the Wisconsin Statutes. The Wisconsin Department of Employee Trust Funds (ETF) and the Group Insurance Board have statutory authority for program administration and oversight. The plan provides post-employment life insurance benefits for all eligible employees.

OPEB Plan Fiduciary Net Position

ETF issues a standalone Annual Comprehensive Financial Report (ACFR), which can be found at http://etf.wi.gov/publications/cafr.htm.

Benefits Provided

The LRLIF plan provides fully paid up life insurance benefits for post-age 64 retired employees and pre-65 retirees who pay for their coverage.

Contributions

The Group Insurance Board approves contribution rates annually based on recommendations from the insurance carrier. Recommended rates are based on an annual valuation taking into consideration an estimate of the present value of future benefits and the present value of future contributions. A portion of employer contributions made during a member's working lifetime funds a post-retirement benefit.

Employers are required to pay the following contributions based on employee contributions for active members to provide them with Basic Coverage after age 65. There are no employer contributions required for pre-age 65 annuitant coverage. If a member retires prior to age 65, they must continue paying the employee premiums until age 65 in order to be eligible for the benefit after age 65.

Contribution rates as of December 31, 2020 and 2019 are:

Coverage Type	Employer Contribution
50% Post Retirement Coverage	40% of employee contribution
25% Post Retirement Coverage	20% of employee contribution

(An Enterprise Fund of the City of Kenosha, Wisconsin)

NOTES TO BASIC FINANCIAL STATEMENTS

December 31, 2021 and 2020

(9) Other Postemployment Benefits – Life Insurance (Continued)

Contributions (continued)

Employee contributions are based upon nine age bands through age 69 and an additional eight age bands for those age 70 and over. Participating employees must pay monthly contribution rates per \$1,000 of coverage until the age of 65 (age 70 if active). The employee contribution rates in effect for the year ended December 31, 2021 are listed below:

Life Insurance Employee Contribution Rates For the year ended December 31, 2021

Attained Age	Basic
Under 30	\$ 0.05
30-34	0.06
35-39	0.07
40-44	0.08
45-49	0.12
50-54	0.22
55-59	0.39
60-64	0.49
65-69	0.57

During the reporting period ending December 31, 2021 and 2020, LRLIF recognized contributions from the City of Kenosha including \$2,539 and \$2,050 of contributions from the Kenosha Water Utility.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs

At December 31, 2021, the Utility reported a liability of \$700,518 for its allocation of the City of Kenosha's proportionate share of the net OPEB liability. The net OPEB liability was measured as of December 31, 2020, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of January 1, 2020 rolled forward to December 31, 2020. No material changes in assumptions or benefit terms occurred between the actuarial valuation date and the measurement date. The City's proportion of the net OPEB liability was based on the City's share of contributions to the OPEB plan relative to contributions of all participating employers. The Utility's allocation of the City's proportion was determined by the City. At December 31, 2020, the Utility's allocated proportion was 0.12735014%, which was an increase of 0.01394142% from its proportion measured as of December 31, 2019.

For the year ended December 31, 2021, the Utility recognized OPEB expense of \$104,056.

(An Enterprise Fund of the City of Kenosha, Wisconsin)

NOTES TO BASIC FINANCIAL STATEMENTS

December 31, 2021 and 2020

(9) Other Postemployment Benefits – Life Insurance (Continued)

At December 31, 2020, the Utility reported a liability of \$482,916 for its allocation of the City of Kenosha's proportionate share of the net OPEB liability. The net OPEB liability was measured as of December 31, 2019, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of January 1, 2019 rolled forward to December 31, 2019. No material changes in assumptions or benefit terms occurred between the actuarial valuation date and the measurement date. The City's proportion of the net OPEB liability was based on the City's share of contributions to the OPEB plan relative to contributions of all participating employers. The Utility's allocation of the City's proportion was determined by the City. At December 31, 2019, the Utility's allocated proportion was 0.11340872%, which was a decrease of 0.00424467% from its proportion measured as of December 31, 2018.

For the year ended December 31, 2020, the Utility recognized OPEB expense of \$27,162.

At December 31, 2021, the Utility reported deferred outflows of resources and deferred inflows of resources related to OPEBs from the following sources:

	 red Outflows Resources	 rred Inflows Resources
Differences between expected and actual experience	\$ _	\$ 33,426
Changes in assumptions	272,511	48,065
Net differences between projected and actual earnings

(9) Other Postemployment Benefits – Life Insurance (Continued)

Long-term Expected Return on Plan Assets. The long-term expected rate of return is determined by adding expected inflation to expected long-term real returns and reflecting expected volatility and correlation. Investments for the LRLIF are held with Securian, the insurance carrier. Interest is calculated and credited to the LRLIF based on the rate of return for a segment of the insurance carriers' general fund, specifically 10-year A-Bonds (as proxy, and not tied to any specific investments). The overall aggregate interest rate is calculated using a tiered approach based on the year the funds were originally invested and the rate of return for that year. Investment interest is credited based on aggregate rate of return and assets are not adjusted to fair market value. Furthermore, the insurance carrier guarantees the principal amounts of the reserves, including all interest previously credited thereto. Below are the target allocations and long-term expected geometric real rate of return for the years ended December 31, 2020 and 2019:

Asset Allocation Targets and Expected Returns as of December 31, 2020

			Long-Term Expected
		Target	Geometric Real
Asset Class	<u>Index</u>	<u>Allocation</u>	Rate of Return
US Credit bonds	Barclays Credit	50%	1.47%
US Mortgages	Barclays MBS	50%	0.82%
Inflation			2.20%
Long-Term Expected			
Rate of Return			4.25%

Asset Allocation Targets and Expected Returns as of December 31, 2019

			Long-Term Expected
		Target	Geometric Real
Asset Class	<u>Index</u>	<u>Allocation</u>	Rate of Return
US Credit bonds	Barclays Credit	45%	2.12%
US Long Credit bonds	Barclays Long Credit	5%	2.90%
US Mortgages	Barclays MBS	50%	4.53%
Inflation			2.20%
Long-Term Expected			
Rate of Return			4.25%

The long-term expected rate of return and expected inflation rate remained unchanged from the prior year at 4.25% and 2.20% respectively. The long-term expected rate of return is determined by adding expected inflation to expected long-term real returns and reflecting expected volatility and correlation.

(An Enterprise Fund of the City of Kenosha, Wisconsin)

NOTES TO BASIC FINANCIAL STATEMENTS

December 31, 2021 and 2020

(9) Other Postemployment Benefits – Life Insurance (Continued)

Single Discount Rate. A single discount rate of 2.25% was used to measure the Total OPEB Liability for the current year, as opposed to a discount rate of 2.87% for the prior year. The significant change in the discount rate was primarily caused by the decrease in the municipal bond rate from 2.74% as of December 31, 2019 to 2.12% as of December 31, 2020. The Plan's fiduciary net position was projected to be insufficient to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the Total OPEB Liability is equal to the single equivalent rate that results in the same actuarial present value as the long-term expected rate of return applied to benefit payments, to the extent that the plan's fiduciary net position is projected to be sufficient to make projected benefit payments, and the municipal bond rate applied to benefit payments to the extent that the plan's fiduciary net position is projected to be insufficient. The plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through December 31, 2036.

The projection of cash flows used to determine the single discount rate assumed that employer contributions will be made according to the current employer contribution schedule and that contributions are made by plan members retiring prior to age 65.

Sensitivity of the Utility's Allocation of the City's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate. For the year ended December 31, 2021, the following presents the Utility's allocation of the City's proportionate share of the net OPEB liability calculated using the discount rate of 2.25 percent as well as what the Utility's allocation of the City's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (1.25 percent) or 1-percentage-point higher (3.25 percent) than the current rate:

	1% Decrease to	Current Discount	1% Increase to
	Discount Rate	Rate	Discount Rate
	(1.25%)	(2.25%)	(3.25%)
Water Utility's allocation of the City's proportionate			
share of the net OPEB liability	\$ 952,904	\$ 700,518	\$ 509,645

For the year ended December 31, 2020, the following presents the Utility's allocation of the City's proportionate share of the net OPEB liability calculated using the discount rate of 4.22 percent as well as what the Utility's allocation of the City's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (1.87 percent) or 1-percentage-point higher (3.87 percent) than the current rate:

	1% Decrease to	Current Discount	1% Increase to
	Discount Rate	Rate	Discount Rate
	(1.87%)	(2.87%)	(3.87%)
Water Utility's allocation of the City's proportionate			
share of the net OPEB liability	\$ 666,827	\$ 482,916	\$ 342,997

(An Enterprise Fund of the City of Kenosha, Wisconsin)

NOTES TO BASIC FINANCIAL STATEMENTS

December 31, 2021 and 2020

(10) Risk Management

The Utility is exposed to various risks of loss related to theft of, damage to, or destruction of assets, torts, errors and omissions, workers' compensation, and health care of its employees. The Utility purchases commercial insurance to insure its assets and protect against liability claims. Settled liability and property damage claims have not exceeded the commercial insurance coverage in the last five years. The Utility, in conjunction with the City, is self-insured for workers' compensation and health insurance. The City purchases stop loss insurance to limit risk exposures.

For liability and errors and omissions insurance, the City, including the Utility, is a participant in the Wisconsin Municipal Insurance Commission (WMIC). The WMIC is an intergovernmental cooperation commission created by contract under Section 66.0301 of the Wisconsin Statutes in August 1987 for the purpose of facilitating the organization, establishment, and capitalization of the Cities and Villages Mutual Insurance Company (CVMIC) and has approximately fifty municipalities as members. CVMIC is a municipal mutual insurance company established on September 19, 1987 under Section 611.23 of the Wisconsin Statutes. CVMIC provides liability and worker's compensation insurance coverage. Separately issued financial statements for CVMIC may be obtained from CVMIC at 9898 W. Bluemound Road, Wauwatosa, WI 53226-4319.

For liability and errors and omissions insurance claims, the uninsured risk of loss is \$125,000 per incident and \$500,000 in the aggregate for a policy year.

The participation of the City, and its related funding for capitalization, is accounted in an internal service fund in the financial statements of the City. See the City's financial statements for additional information on the City's participation in the public entity risk pools as a whole.

(11) Basis for Existing Rates

Water Unit

On April 20, 2015, the PSCW authorized a rate increase effective June 1, 2015. The new rates were approved using the Simplified Rate Case Process which allowed a 3.0% increase in rates for general service, public fire protection and wholesale service. The revenue increase combined with the Utility's prior year's net operating income did not exceed an overall rate of return of 5.9%, the Commission's overall rate of return applicable to a municipally owned water utility.

Sewerage Unit

On November 17, 2014, the Board of Water Commissioners approved a rate adjustment for sewerage service, industrial waste discharge permit and miscellaneous services that was placed into effect June 1, 2015.

Household Hazardous Waste Unit

Rates were approved by the Board of Water Commissioners on November 27, 2006, and placed into effect January 1, 2007.

(An Enterprise Fund of the City of Kenosha, Wisconsin)

NOTES TO BASIC FINANCIAL STATEMENTS

December 31, 2021 and 2020

(12) Commitments and Contingencies

At December 31, 2021, the Utility had outstanding purchase commitments for contracts of approximately \$265,115 for water main relays and lead service line replacement and \$2,768,988 for installation of micromembrane filters at the Water Production plant.

At December 31, 2020, the Utility had outstanding purchase commitments for contracts of approximately \$218,198 for water main relays and lead service line replacement, \$142,516 for equipment replacement and improvements at the Industrial Park Lift Station and \$23,006 for the purchase and installation of aeration blowers at the wastewater treatment plant.

From time to time, the Utility becomes a party to claims and legal proceedings. Although the outcome of such matters cannot be forecasted with certainty, it is the opinion of management and the Utility's attorney that the likelihood is remote that any such claim or proceedings will have a material adverse effect on the Utility's financial position or results of operations.

(13) Subsequent Events

On January 31, 2022, a contract was awarded to A.W. Oakes and Son by the Board of Water Commissioners (the Board) for Pershing Boulevard Area Water Main Relay (contract 2022-01-W) in the amount of \$867,418. On February 14, 2022, the Board awarded contracts to Globe Contractors, Inc. for KWU Water Main Relay Package #2 (contract 2022-02-W) in the amount of \$888,669 and August Winter & Sons, Inc. for Big Buck Lift Station Improvements (contract 2022-03-WWTP) in the amount of \$1,045,000. On February 28, 2022, a contract was awarded by the Board to Reesman's Excavating & Grading, Inc. for KWU Water Main Relay Package #3 (contract 2022-04-W) in the amount of \$359,590. On March 28, 2022, the Board awarded a contract to DK Contractors, Inc. for KWU Water Main Relay Package #4 (contract 2022-05-W) in the amount of \$804,305.

REQUIRED SUPPLEMENTARY INFORMATION

December 31, 2021 and 2020

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION for the year ended December 31, 2020

Changes of benefit terms. There were no changes of benefit terms for any participating employer in WRS.

Changes of benefit terms. There were no changes of benefit terms for any participating employer in LRLIF.

Changes of benefit terms. There were no changes of benefit terms in the OPEB health insurance fund.

Changes of assumptions. WRS actuarial assumptions are based upon an experience study conducted in 2018 using experience from 2015 – 2017. Based on the experience study conducted in 2018, actuarial assumptions used to develop Total Pension Liability changed, including the discount rate, long-term expected rate of return, post-retirement adjustment, wage inflation rate, mortality and separation rates.

LRLIF actuarial assumptions are based upon an experience study conducted in 2018 using experience from 2015 – 2017. Based on the experience study conducted in 2018, actuarial assumptions used to develop Total OPEB Liability changed, including the discount rate, wage inflation rate, and mortality and separation rates.

Health Insurance OPEB actuarial assumptions are based upon an experience study conducted in 2018 using experience from 2015 – 2017. Based on the experience study conducted in 2018, actuarial assumptions used to develop Total OPEB Liability changed, including the discount rate, wage inflation rate, and mortality and separation rates.

Health Insurance OPEB. No assets are accumulated in a trust that meets the criteria of paragraph 4 of the GASB Statement No. 75.
